

# Afghanistan & Asian Community Organisation

*Bringing  
Communities  
Together*

## Human Disaster in Afghanistan

**Afghanistan, one of the poorest countries in the world, is facing a humanitarian disaster.**

After many years of war, the health and education systems have collapsed. Women and children suffer the most.

The Afghanistan & Asian Community Organisation has offices in six remote provinces of the country. We can reach communities that no other organisation can reach.

**We are already working in these communities, but we need your help to make a real difference.**

**In Afghanistan, 1 in 5 children will die before their fifth birthday.**

### WITH YOUR DONATIONS WE WILL...

1. Set up mobile health centres to provide emergency assistance.
2. Provide information, advice and training on basic health care.
3. Improve access to water by digging new wells
4. Establish education facilities for children and adults.

### About the Afghanistan & Asian Community Organisation

The Afghanistan and Asian Community Organisation was founded in London in 2003. Three years later, it became an international charity to provide humanitarian assistance to the people of Afghanistan.

We are an independent charity, not affiliated to any political party or religion. We are committed to working with the poorest and most excluded, regardless of gender, religion, ethnicity or background.

While we continue to provide education and advice to Afghan and Asians in London, we now want to expand our work in Afghanistan. The ability and commitment of our volunteers inside Afghanistan will enable us to do this, despite the difficult security and financial situation.

## How your contribution will count...

**£15** provides a pre-natal kit for traditional birth attendants.

**£35** secures safe drinking water for an entire family.

**£40** buys fruit saplings which enable a farmer to establish a private orchard.

**£45** can build an irrigation canal to water the crops of one family.

**£85** allows a family of 6 to start a beekeeping enterprise.

**£100** can offer education facilities to 60 children.

**£500** could enable us to construct a well in a district to serve 100 families.

**Women and children are left to beg on the streets.**
